

California OES Weather Threat Briefing

Sunday, April 4, 2021
9:00 AM PST

Day 1 (Sunday): Locally gusty winds and low humidity will lead to elevated fire weather conditions across the southern California mountains and deserts again today.

National Weather Service

*Western Region Headquarters
Regional Operations Center
Salt Lake City, UT*

WEATHER KEY POINTS

04/04/21 - 04/10/21

Sunday-Saturday

- Very warm temperatures continue through Monday, with near record-values possible across the southern desert locations
- Periods of gusty winds will continue through Thursday, with locally elevated fire weather conditions expected, especially in the mountains and deserts of Southern Region
 - The strongest winds will likely occur Monday, as the mostly dry storm system passes through the region
- Very light precipitation is possible across northern California Sunday night and Monday, with any amounts look to be less than one-tenth of an inch
